Типовые задания для практических занятий TEMA 1.1 Read the text and say whether the following statements are right or wrong. Correct them if they are wrong.

My Family

My name is Polly. I am ten. I am a schoolgirl. I go to school. I like learning English and playing puzzles. I would like to tell you about my family. It is neither big nor small. There are four of us.

I have got a mother. Her name is Jane. She is a teacher. She is very responsible and creative. She likes her work. Her hobbies are singing and shopping. My mother is fond of reading detective stories.

I have got a father. His name is Jack. He is a doctor. He is clever and hardworking. My father likes playing golf. He goes in for sport to be healthy and strong. He is fond of fishing too.

My brother Nick is small. He is only four. He likes playing toys. Usually we get on well with him, but sometimes he is very naughty.

On Saturdays and Sundays we like to be together. Last Sunday we went to the country. We had a good rest.

TEMA 1.2

Read the text and say whether the following statements are right or wrong. Correct them if they are wrong.

Dear friends in Russia.

I'm sixteen years old and attend high school in Sydney. My school has a happy and cheerful atmosphere. Everyone gets along with each other. We wear a uniform that represents our school, Casimir College. I live in Australia but my background is Lebanese and I'm proud of that. In Australia there are people from many different cultures, religions and backgrounds. I come from a big family of five children and I have a Mum and Dad. We have barbeques at home occasionally, which gives us the time to talk to each other. When I grow up I wish to become a news reporter on TV. I think it would be very interesting and enjoyable to go out and find out things and then represent them on the news.

Тема 3.1

Read the text and say whether the following statements are right or wrong. Correct them if they are wrong.

Christmas Presents

Some weeks before Christmas shops are very busy. People buy presents for their relatives and friends. When I buy presents I always ask myself "Would he or she like to have this thing? Will he or she like my present?" Choosing presents is a difficult business for me. I never buy whatever comes up. I think twice and try to find reasons before buying this or that. This year I've bought a saucepan for Granny. Her old one is too small for our family. I've bought a new tie for Granddad. His old one isn't trendy at all. I've bought a very beautiful flower for Mum and a nice fish for Dad's aquarium. My little sister Jane likes watching cartoons. So I've bought a cassette with her favourite ones. All these presents are from the heart.

10. Michael bought a cassette with Jane's favourite cartoons.

Тема 3.2

Read the text and say whether the following statements are right or wrong. Correct them if they are wrong.

Famous people work in shops for a day

Boy George usually stays in bed on Saturdays, but last week he sold clothes in a shop. Actor Jeremy Irons sold flowers. And who did this man buy his knives and forks from? Uri Geller? It was all right.

Last Saturday, shoppers in Covent Garden in London had an unusual day. For 12 hours over 300 stars from television, pop music, sport and the cinema worked in shops, pubs, cafes and restaurants in Covent Garden. More than 100,000 customers came to see them.

Actress Kelly Hunter organized everything. The idea was simple. People came to see the stars, they bought things and the shop owners gave 5 % of the money to charity. But the stars didn't only sell things. They signed thousands autographs and gave kisses to their fans.

One hundred policemen were there, but there was no trouble. It was a good day for everyone. Fans got autographs and kisses from their favourite stars, the shops got a lot of new customers and at the end of the day more than £ 100,000 went to charity.

- 1. Covent Garden is in London.
- 2. Boy George works in a clothes shop every Saturday.
- 3. Actor Jeremy Irons sold flowers.

Learning a foreign language

Foreign languages are absolutely necessary for people nowadays, because of our growing international contacts with foreign countries. There are many reasons why we begin to learn foreign languages. One learnt it to be able to communicate with other people who speak this language, other learn it for future career. If we are planning to travel to the countries where the language we know is spoken we can communicate with people and understand what they are saying to us. If we work in any branch of science we wish to read scientific books and journals in other languages to raise our professional level. The ability of speaking one or two languages helps people from different countries to develop mutual friendship and understanding. We can also make our intellectual and cultural horizons wider through contacts with people of another culture. It is also interesting to read foreign literature in the original. We can read foreign magazines and understand films without any help and translation. My friend learns English because it is a very popular language all over the world. It is spoken in many parts of the world and there is a lot of business correspondence and literature in English. He is going to learn Spanish which is also a widely spread language.

important influence on plants, animals and humans and is different in different parts of the world.

But recently the climate has changed a lot, especially in Europe. Scientists think that the reason is the greenhouse effect. It is caused by carbon dioxide. Carbon dioxide is produced when we burn things. Also people and animals breathe in oxygen and breathe out carbon dioxide. As you know, trees take this gas from air and produce oxygen. But in the last few years people have cut down and burnt big areas of rainforest. This means that there are fewer trees and more carbon dioxide.

This gas in the atmosphere works like glass in a greenhouse. It lets heat get in, but it doesn't let much heat get out. Thus, the atmosphere becomes warmer.

The greenhouse effect is sometimes called global warming.

Bonpoc:

What should we do to decrease the amount of carbon dioxide in the air?

Правильный ответ: The main thing is to plant more trees. They will take carbon dioxide from air and produce oxygen.

MY MEALS

It goes without saying that I prefer to have meals at home. At the weekend I like to get up late and have a good breakfast of scrambled eggs, or pancakes, or something like that. But on weekdays I'm always short of time in the morning. So I just have a cup of strong tea or coffee and a couple of sandwiches.

As I spend a lot of time at school (usually eight or nine hours) it's necessary to have a snack at midday just to keep me going. That's why I have to go to the school canteen to have lunch. Our school canteen leaves much to be desired. It has become a tradition with our canteen to serve chops and watery mashed potatoes every day with a glass of cocoa or stewed fruit.

But I enjoy my evening meal at home. My mother is a wonderful cook and her dinners are always delicious and various.

To begin with, we usually have some salad - tomato and cucumber salad or mixed salad (I like it very much). For the first course we have some soup – noodle, mushroom or cabbage soup, or maybe some fish soup for a change. For the main course we have meat, chicken or fish dishes, for example, steak or fried fish with spaghetti or potatoes (boiled or fried). We also have a lot of vegetables – green peas, carrots, tomatoes, cucumbers. I prefer meat to fish but my mother makes me eat fish from time to time. She says it's good for my brains. For dessert we have some fruit, fruit juice or just a cup of tea with a slice of cake.

On Sundays we sometimes go to McDonald's. I like everything there: cheeseburgers, hamburgers and Big Macs, apple pies and fruit cocktails. But we can't afford to go there very often, because it's rather expensive for a family and besides, they say it's not very healthy to eat at

McDonald's.

- 1. The boy has a big breakfast on weekdays.
- 2. The boy hates his school canteen.
- 3. He enjoys his evening meal at home.
- 4. His mother does not make him eat fish.
- 5. The family doesn't go to McDonald's very often.

Правильный ответ:1F2T3T4F5F

Обоснование: 1. On weekdays he is always short of time 2. His school canteen leaves much to be desired 3. His mother is a wonderful cook 4. His mother makes him eat fish because it

is good for his brains 4. The family does not go there very often because it is expensive and it is not very healthy to eat at McDonalds 20 Прочитайте текст, ответьте на вопрос и запишите развернутый, обоснованный ответ **SHOPPING** It's Saturday today, and we are going to do the shopping this morning. We may do it in the grocery on the ground floor of our block of flats but we prefer to do it in the big supermarket in the centre of the town. There is always a good choice of foodstuffs there. Here is this supermarket. The first counter on the right is the bakery. There is always fresh bread, buns and rolls there. Next to this is the delicatessen and sausage counter, where one can buy different kinds of sausage, ham and salted pork. They sell milk, cream, cottage and hard cheese, butter at the dairy counter. Then come fruit and vegetables counter, the meat counter, the fish counter, the dry grocery at which one can buy various cereals, spices, tea, coffee and oil. The confectionary is the cafeteria, where one may have a cup of coffee, a glass of juice with pies or cakes. They sell sweets, candies and bars of chocolate there too. Now we are choosing some apples and lemons. Yesterday in our greengrocer's we bought oranges and grapefruits. We are not going to buy any meat in this shop, because last Friday we bought some pork at the butcher's. I think, later we'll buy potatoes and onions, because our bags are heavy enough already. Next time I am going to buy herring and smoked fish. You see, there is always a wide selection of foodstuffs in our supermarket. By the by, two minutes ago I met my neighbour there. He carried a kilo of sausage, a package of rice, a bottle of oil, a jar of cream, a packet of sugar and a loaf of bread in his bag. He waited for his wife. She forgot to buy some poultry. Where do you buy foodstuffs and why? Правильный ответ: at a supermarket Обоснование: there are many departments there where I can buy everything I need: buns and rolls at the bakery, sausage, ham and salted pork at the delicatessen, milk and cheese

at the dairy, oranges and grapefruits at the greengrocer's, pork at the butcher's, cereals,

tea and coffee at the grocery.

Leonardo da Vinci

Leonardo da Vinci was the most famous personality of the 15th and 16th centuries. He is widely known as a brilliant artist and scientist. Fewer people know that he was also an engineer, an inventor, a toymaker, a machine designer, an architect, a singer, a theatre costume designer and an animal lover!

From his childhood, Leonardo was a brilliant painter. He took painting very seriously and studied it regularly. He even created his own paints to be used for his pictures.

By the age of 25, Leonardo had started his own workshop and had become a famous painter. He was one of the first Italians to use oil paints. According to art experts, his Mona Lisa is considered to be the best known, the most visited, and the most written about work of art in the world. Nowadays this portrait of a woman hangs in the Louvre Museum in Paris. People don't know for sure who the Mona Lisa was. But there have been lots of ideas like it was the real-life wife of a merchant, or even a self-portrait of Leonardo as a woman.

Even though he was a great artist, Leonardo had trouble finishing his work. There were so many interesting things to learn and to do. His remarks and inventions were recorded in 13,000 pages of notes and drawings. Leonardo also never published any of his notes and drawings. He simply kept personal diaries in which he recorded them.

Leonardo da Vinci wrote most of his notes from right to left. The result of this writing was a mirror script, which was not easy to read. Maybe it was due to the fact that he wanted to keep his writing secret. According to his pupils, Leonardo da Vinci could write with one hand and draw with the other at the same time.

Another interesting fact about Leonardo da Vinci was that he was a strict vegetarian! This was an unusual thing for a person who lived in the Middle Ages. Leonardo did this not for any health reasons but because he loved animals and was against killing animals for food. He was also against keeping animals in cages. He used to buy caged animals and birds and set them free.

- 1. Nowadays there are several versions about who Nona Liza was.
- 2.He published his notes and drawings.
- 3.He went to church that's why he was a vegetarian.
- 4.He wrote most of his notes from right to left for pleasure.

My future profession

Choosing a career is one of the most important life decisions that every person faces on the threshold of adulthood. It means that on leaving school every teenager should be aware what he wants to become. When I was ten, I had a chance to try my hand at working on cattle ranch in California where my grandparents live. My grandfather is a livestock expert and my granny is a poultry farmer. So, since that time I realised how important the knowledge of

cattle anatomy and physiology is. Personally, I want to become a dairy inspector. Dairy inspectors ensure that dairy farms comply with government standards related to facility sanitation and herd health. This job falls under the more general category of agricultural inspector. The job generally requires the ability to perform the following duties and responsibilities: inspect dairy farms to ensure that they adhere to various regulatory and food safety requirements; collect samples and take them to the lab for testing; issue licenses to milk producers; document violations and issue fines; give recommendations to facility managers to improve biosecurity and reduce the incidence of disease; compile comprehensive reports that detail the conditions at dairy facilities. Inspectors are usually assigned to a specific territory and conduct unannounced inspections of each farm every six months. Dairy inspectors review the entire facility during the course of their visit. They check the cleanliness of the milking parlour equipment, examine the health of the dairy herd, and collect milk and water samples for evaluation. After passing the exam, the inspector can be licensed to perform regulatory duties in their state. To be successful in this role, you'll generally need the following skills and qualities: interpersonal skills (inspections require positive interactions with owners and staff at dairy farms), communication skills (dairy inspectors must be able to discuss any issues that arise during their inspections with the owners of the dairy farms they're inspecting and be able to write about them effectively in reports), and attention to detail (inspectors must be able to notice even the smallest violations of rules and regulations during their inspections). Work as a dairy inspector usually requires extensive travel. Candidates must be willing to travel throughout their designated territory to investigate many dairy facilities. They also must be comfortable with being around cows and other farm animals. Making a conclusion, I can say that qualified candidates with a combination of education and hands-on experience have the best prospects in this field. I'm sure that my dream of a good career will soon come true.

Bonpoc: Why are the main duties of diary inspectors?

Правильный omeem: they inspect dairy farms to ensure that they adhere to various regulatory and food safety requirements; collect samples and take them to the lab for testing; issue licenses to milk producers; document violations and issue fines; give recommendations to facility managers to improve biosecurity and reduce the incidence of disease; compile comprehensive reports that detail the conditions at dairy facilities.

Ecology:

Since ancient times Nature has served Man, giving him everything he needs: air to breathe, food to eat, water to drink, wood for building and fuel for heating his home. For thousands of years people lived in harmony with the environment and it seemed to them that the resources of Nature had no end or limit.

With the industrial revolution our negative influence on Nature began to increase. Large cities with thousands of polluting plants and factories can be found nowadays all over the world. They pollute the air we breathe, the water we drink, the fields where our crops are grown. Big cities suffer from smog. Cars with their engines have become the main source of polluting in industrial countries.

Vast forests are cut down everywhere for the needs of industries. As a result many kinds of animals, birds, fish and plants are disappearing nowadays.

The pollution of the air and the world's oceans and the thinning the ozone layer are the other problems arising from men's careless attitude to ecology.

Active measures should be taken to save the life on our planet. There is an international organization called **Greenpeace** which is doing much to preserve the environment.

Bonpoc: What are the main ways to reduce air pollution in cities?

Правильный ответ: Encourage people to use bicycles and electric cars. Ban to use wood and coal for cooking and heating. Limit parking spaces to encourage people to use public transport. Control forest fires and the work of big plants. All these measures will help reduce air pollution.
